

NO **CANCER** **SERVICES** **NO** **VOTES**

On June 5, I will VOTE AGAINST the government parties who intend to take cancer services away from the people of Sligo and the North-West

The fight to save **CANCER SERVICES** is **EVERYONE'S FIGHT**

The one powerful weapon you have is **YOUR VOTE**

Can we keep cancer services in Sligo?

YES WE CAN

...but only by hitting the government where it hurts.
At the **June 5 elections** we urge you to **VOTE AGAINST** government candidates. If they know they're going to lose, then **they will finally demand action**

The campaign hopes to distribute this leaflet to everyone in the North-West.

BUT WE NEED YOUR HELP!

Please check out www.sligocentre.net for details . . . or come to one of our meetings (Tuesdays at 11 Sligo, 8pm).

The fight to stop cancer services being taken away from Sligo General Hospital HAS TO BE STEPPED UP, because the government still won't listen.

If we lose cancer services in the North-West what will disappear next?

The only people who can persuade the government to reverse this decision are the elected representatives of government parties in the North-West. We believe they will only do that if they see their chances of being re-elected on June 5 disappearing.

This is just the first step of this phase – we will be knocking on doors in the North-West to urge people to vote against government candidates throughout this year's European and local elections campaign. Please USE YOUR VOTE to help stop this injustice.

This leaflet includes (on the reverse side) a poster for your window or car.

On **JUNE 5** your vote counts
