

# WOODIE'S DIY PROFITTEERING FROM APARTHEID ISRAEL

Grafton Group plc

which owns Woodie's DIY and Atlantic Homecare continues to profit from their sales of Keter plastic products manufactured in Apartheid Israel.

Sales of **Keter** garden sheds, bins, wheelbarrows and storage crates support the Israeli economy and help fund Israel's genocide against the Palestinian people and its illegal occupation, ethnic cleansing, theft and destruction of Palestinian land, water and property.

## 60 YEARS A LONGING

Israel was established in Palestine on lands ethnically cleansed and stolen from the indigenous Palestinian people in 1948. Over 4 million Palestinians remain in refugee camps, 60 years after they were illegally expelled, longing to return to their homes, their orchards, their olive groves, their stone walled fields and their family graveyards.

The EU grants Israel special trading privileges under the terms of the Euromed Agreement, part 2 of which demands Israel must respect human rights and democracy. Since the beginning of the second intifada in September 2000 Israel has killed over 4000 Palestinians, many of them women and children.

The EU, with the complicity of the Irish Government fails to enforce the human rights clause of the Euromed agreement.

## Boycott Israeli Goods
